GETS CHANCE IN BIG LEAGUE. Southpaw Bill Otey Will Be Given Tryout by Washington Americans.

(Special to The Times-Dispatch.) Norfolk, Va., July 13.—Southpaw Bill Otey, released by the Norfolk team while ill in a local hospital, and who is again on his feet, is to be given a chance by the Washington club of the American League.

Otey was last night ordered to report in Detroit, where the team is now playing, on Friday of this week, and left last night. If he can deliver the goods, and the big fellow says he can, he is slated for a permanent berth.

Otey is to be given the tryout on the recommendation of "Billie" Hannan, who is confident the southpaw, with a heavy catcher to coach, will prove fast enough for major league company.

AVIATOR COMMITS SUICIDE. Mental Dependency, Due to Number of Mishaps, Causes of Tragedy.

Marblehead, Mass., July 13.—Lieutenant Alexander L. Pfitzer, of Budapest, Hungary, an aviator, who had

designed and operated aeroplanes, committed suicide by jumping from a skiff in Marblehead harbor yesterday. He had been mentally depressed for some weeks.

In his flights with Herring-Curtiss aeroplanes recently, Lieutenant Pfitzer met with a number of mishaps, and after each of these he became more and more discouraged and morose. His friends say that he had expressed the intention on several occasions of committing suicide. Last Saturday, when he narrowly escaped drowning in a creek, after a fall with his machine, he exclaimed while he was being pulled out of the water, "I wish I had broken my neck, boys."

Yesterday he went out from Marblehead in a skiff, and later the boat was found floating in the harbor. It contained the man's coat and hat, an automatic revolver and a note giving the address of the owner of the boat.

Lieutenant Pfitzer was about thirty-five years of age. He was a member of an old Hungarian family. He came to this country about eight years ago.

NEW LAWS GOVERN HEALTH OF PUBLIC

(Continued From First Page)

Placards are also to be posted in these cases, and there is to be thorough disinfection at the end of the period. In cases of diphtheria, there shall be no release from isolation until three weeks have elapsed or until a culture shall have been submitted by the attending physician and pronounced free from bacilli by the bacteriologist of the State Board of Health or some bacteriologist approved by the board.

Coming to the sanitation of buildings, the amount of cubic space per pupil and the amount of fresh air to be supplied are to be enforced according to the state law. The air is to be kept at all times in a wholesome condition. No school room is to be swept until after all pupils have left at the end of the day's exercises. No floors are to be swept without first having been sprinkled or covered with damp sawdust or damp paper. Furniture and woodwork is to be wiped down with an approved disinfectant solution at least once a month and wiped with a damp cloth at least once a week.

Good sanitary drinking water is to be supplied at every schoolhouse. Sewerage arrangements are to be kept up to health standards.

Care of Railway Coaches.

Railroad coaches are to be cleaned in the same manner as schoolhouses. No railway coach or street car may be swept or dusted while occupied by passengers.

Dry dusting with feathers or a dry cloth is forbidden. A vacuum cleaner is recommended whenever possible. Custodians are to contain water and must be disinfected at the end of each run. Everything movable must be taken from the car at least once each month and it is then to be thoroughly cleaned, dusted, sunned and aired, while the interior is to be fumigated with formaldehyde gas.

The same rules, practically, apply to railway stations, which are to be thoroughly cleaned once a week.

Theatres must be provided with means for maintaining the purity of the atmosphere. All buildings used for public meetings are to be cleaned after each performance. Suptidors are to be supplied to contain water.

The regulations as to what constitutes proper disinfection are, of course, technical.

The State Board makes it plain that all rules and regulations are not promulgated for fun, but will be strictly enforced.

Following is the list of county boards of health appointed:
